Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

- 6) ☐ Other: ____.

DETAILED ACTION

Election/Restriction

1. Applicant's election without traverse of Group I, claims 1-14 is acknowledged.

Specification

2. The "background of invention" and "summary of the invention" should be included in the specification.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Lampaert et al. (US 6,728,942).

Lampaert et al. discloses a MOSFET transistor structure formed in a semiconductor substrate (because the transistor is a metal oxide silicon field effect transistor), the transistor structure comprising: a plurality of second conductivity strips formed in the substrate, the plurality of second conductivity strip including alternating drain strips (642,

646, 650) and source strips (624, 628, 632, 636); a plurality of gate strips (606, 608, 610, 612, 614, 616) formed over the substrate between the second conductivity strip; an interconnect structure including drain contacts (638), source contacts (620) and gate contact (618, 618) formed over the plurality of the second conductivity strips and the plurality of gate strips, the interconnect structure being electrically connected to the second conductivity strips; and a metal structure formed over the interconnect structure, the metal structure including a plurality of first drain contact metal strips (640, 644, 648) that are electrically connected to the drain strips, the plurality of first drain contact metal strips having widths, lengths, and thickness such that each first drain contact metal strips has a width, a length, and a thickness. See Fig.6.

Allowable Subject Matter

4. Claims 2-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. Papers related to this application may be submitted to Technology center (TC) 2800 by facsimile transmission. Papers should be faxed to TC 2800 via the TC 2800 Fax center located in Crystal Plaza 4, room 4-C23. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15,
